

Madera Rotary Club

Madera Municipal Golf Course—Tuesday Noon

What's Buzzin'?

Debbie Allen has been involved with the Bee business for 20 years. Today she will share interesting highlights and activities of a beekeeper's life.

Allen Apiaries is the name of the busi-

ness owned by Debbie and her husband Larry. Beekeeper Polination is their main business. Honey, which is a sweet by product, has been sold to a honey packer in Kansas for the past 10 years. Larry has run bees for almost 40 years and grew up in the business helping his father and uncles in the Kerman and Madera area.

August is Membership Month

Rotary's Membership Motto, "Every Rotarian: Reach One, Keep One", reinforces the need for every member to invite someone to join Rotary, to mentor and involve that person, and to help them become active and enjoy Rotary.

Invite a guest to our Rotary meetings. Tell them who we are and what we do in Madera and in our world community. Fill out a proposal form and give it to

a board member for the approval process. When approved for membership your nominee is invited to a Rotary Information meeting to learn about the benefits of Rotary, the costs, and other expectations. After induction and welcome to our club, new members are automatically members of the COG committee.

COG: The Gear that makes our Rotary Wheel Turn.

Did you know:

Each colony has a single queen.

A honey bee hive can contain up to 40,000 bees at spring peak.

There are nearly 20,000 types of bees.

Honey never spoils.

Archaeologist have found edible honey in the tombs of many of the pharos—if it's perishable, its shelf life is a LONG time...
