

Madera Rotary Club

Madera Municipal Golf Course—Tuesday Noon

MIKE'S ALL POINTS BULLETIN

MADNET

Deputy Brad Dorr has been an officer for 23 years and this is his third assignment in narcotics.

For the past 2 years, Deputy Dorr has been a member of the Madera Narcotics Enforcement Team (MADNET), which is a multi-agency drug enforcement team that works everything from street drug possession and sales to the marijuana

eradication that Sheriff Anderson spoke about recently.

Our member **Karen Mitchell** is bringing us this program today because she thought it would be interesting for our Rotarians to see both the types of drug crimes most common in Madera as well as to know about the team that works behind the scenes to combat the drug

problem we have. MADNET uses informants, search warrants, surveillance, etc. to get the criminals. The team also has its own prosecutor assigned to prosecute their cases.

Madera Rotary in 2014

Fifteen Madera Rotarians met last week for a “Visioning Workshop” facilitated by a volunteer team of district leaders. Participants were asked to imagine it was 2014 and describe what their vision of the Madera Rotary Club was....

How many members

are there? How much money did we raise? How? What kind of projects are we doing in the community? In the World? For youth? How are we communicating—are we Tweeting? Lots of exciting brainstorming going on—great ideas and more to come!
